

## Celebrating 10 years in the Hunter

When three Hunter dental centres merged in 2003 creating Pacific Smiles Group no one imagined they'd grow so successfully.

Just 10 years on and Pacific Smiles Group is operating 34 dental centres from Victoria to Queensland including seven dental centres and two NIB Dental Care Centres in the Hunter and Lake Macquarie regions.

Dentist and Pacific Smiles Group founder, Dr Alex Abrahams, said there are plenty of growth opportunities in the Hunter, giving the community access to quality and affordable dental care.

'Our continued growth is not achievable without outstanding employees and dedicated practitioners working together to ensure our patients get the best dental care,' Dr Abrahams said.

Pacific Smiles Group eventually plans to be publically list on the ASX and sees its continued involvement in the Hunter as a central focus for ongoing growth and success.
